Every Open, Regional, State, National or International Cookoff should be an “Open meat” requirement with no limits on meat categories.</p> | <p>This proposed rules change deals with restrictions, so it appears under V.A.3. We have not, and cannot define “open meat.” We can say restrictions may not be placed on certain cookoffs. Also, an Open cookoff is defined in Rule VI.A.2. Naming them is not necessary.</p> <p style="text-align: center;">Accepted</p> | CASI POD |
